

Problem Statement No. 4

College Admission Agent (RAG Based)

Domain: Agentic AI

| THE CHALLENGE

A **College Admission Agent**, powered by **Retrieval-Augmented Generation (RAG)**, streamlines the student admission process by leveraging natural language understanding and reliable institutional data.

- **Information Retrieval:** Retrieves and summarizes admission policies, eligibility criteria, and FAQs from institutional databases and official sources.
- **Instant Assistance:** Prospective students can ask natural language questions and receive accurate, up-to-date responses instantly.
- **Comprehensive Support:** Helps applicants with course selection, application guidance, fee structure details, and important deadlines.
- **Enhanced Experience:** By using trusted, real-time data, it significantly reduces manual inquiries and enhances the overall applicant experience.
- **Transparency & Efficiency:** This AI-driven assistant boosts transparency, accessibility, and efficiency across the entire college admissions ecosystem.

Mandatory Technology Requirement

Use of **IBM Cloud Lite services** / **IBM Granite** is mandatory.
